Speaking Saturday Night GEN. WASHINGTON BARROW

Gen. WASHINGTON BARROW will speak of the political questions of the day at th Court-House to-morrow night.

The City Press. The Banner .- The diepert dive the Banner the day, it makes in the numb r before us It takes for the subj ct of its leading ar icl-

the "Inconsistency of the Breckinridge D m ocrats of Tennessee-Sectionalism the O ct-Disgnion the Tendency." Under the imposing array of what the printer calls bold-face letter, our contemporary draws up a lengthy indictment against certain leaders of the Breckinridge Democracy in Tennessee and proceeds to convict them of maintaining to-day a doctrine which a few years ago they utterly repudiated-the doctrine of Congressional Intervention for the protection of Slavery in the Territories. That man will never enjoy a realization of his expectations who expects to find anything like con sistency in modern Democracy, whether tha D mocracy be found in Tennessee or else where. A few short years ago, Mesers. An-DREW EWING, LANDON C. HAYNES, J. D. C. ATKINS and WILLIAM B BATE, Breckingidge Electors in this State (all but the first, and he could have been if he would.) were, as the Banner shows, dead out against the doctrine of Congressional Intervention. But now they will tell you that there is no other doc trine known to the politician, that, when compared with this, is worth a continental sixpence-that the man who doesn't swallow this doctrine as easily as a sugar-coated pill, must be a brother-in-law to WENDELI PHILLIPS, or a very near relation to Joshua R. Gippings. Four years ago these gentlemen (of course we don't mean PHILLIPS and GID penes, for they don't come under the head o

gentlemen in this country,) thought the Cin cinnati Platform was of almost divine origin -that it reposed in unsullied purity midway between the Bible and the D claration of In dependence-and that it ought to be framed in gold and precious stones, and hung up in every meeting-house in the land, so that its sublime procepts might aid the minister of th · Gospel in leading the people by the still waters of life-

"To a rock that is higher than they." But how stand they now upon that platform Just as an elephant stands upon the top o a conservatory, or a school-boy stands upon bot horse-shoe-they don't stand upor it at all. To them it is a humbug and a swindle, and they repudiate and spit upon it. In this they are not far wrong; but they are very far from consistency.

The Union and American .- We are pained t

learn from the Union and American that "the BELL and DougLas wings of the Opposition have been very busy in circulating the charge that Mr. BRECKINRIDGE in 1856 favored Squatter Sovereignty." If this is true, we hope that warrants will immediately b issued for the arrest of these two "wings of the Opposition," and that they will be se verely punished for such infamous conduct Such things should not be tolerated in respectable and law-abiding community like this, and if it is persisted in, the majesty o the law must be invoked to put it down. N charges of any s rt should be circulated against Mr. BREKINRIDGE. He is now private citizen, or had just as well be, and he ought strictly and religiously to be let alone. For our part, we don't believe that Mr. BRECKINRIDGE ever did taver Squatter Sovereigney, or if he did, that it was done Sovereignty, or if he did, that it was done cared in a new days.

**EMENAL WEARNES.—Particular attention baving be n given to this disease, and all the consequences growing out of it, brought on in many cases to the arrective habits of it considerate yealess, and ex ities, is very fund of a little fun, and itequently does and saye things to amuse he friends that he would very much dislike to see urder the head ot "Wit and Humor" in the newspapers. And bence, it be ever said he was in favor of Equatter Sovereignty, it was done simply to burle-que the LITTLE GI-ANT, and the remark should not be made serious thing of. If men, possessing a line flow of animal spirits, are to be held amenable to the people for the innocent jokes they may chance to get off, it is difficult to tell

> what the country will come to. The Gasette.- The leading article in th Guzette is from the text : "What shall we use for money ?" Our neighbor is becoming slarmed at the facility with which all sorts of money are now counterf-ited.

"If both gold and flue engravings fail," says he, "to give confidence in the value of the coins or notes which they represent, it is hard to see how we shall flud a currency to on their shelves by the can tant changes o

supply their place." We really don't know what we shall "us for money," unless we fall back upon the currency of the early settlers, and use coonskins. This, we think, would be a good North, so as not to come in competition?
There are three or four worthy and irtelligent ladies conducting private institutions.
Why come is competition with them? The idea. You may make bogus o in, and spurious bank-bills, but we day you to counter-

KING-TON'S SPRINGS .- "THE SUB-CRIBER" | troth is the schools were established to give paid a flying visit a few days since to this free education to the children of the city, and management of Mesers, Yearman & KREIDER these springs have been made to assume an attraction for the health and pleasure-seeker that they have never b fore bid. The whole establishment has ben overhauled and im proved, and everything connected there with is fitted up in the neat-st and most comfortsble style. To one who has been there this season, and marked the improvements that have been made, it is no wonder that the place is thronged with visitors.

The sources of amusement at Kingston Springs are pl utilul. A large ball to m, a ten piu alley, fine fields for bunling and fishing are among them.

There will be a ball at these Springs or the 15th. It will be a delightful affair, and the young people especially should attend. The young gentlem n should by all means book thems Ives for the occasion, as the number or beautiful young I dies there is now large, and will be still larger on the night of the ball. We know of no place within r ach of Nashville where there are more tac.litics for enjoyment than at these Springs.

HEAVY MAIL ROBBERY!-THREE DOLLARS REWARD!-About three weeks ago a gentle man of New Providence, some sixty mile down the river, sent us, in a registered etter, three dollars for a year's subscription to the WEEKLY PATRIOT. Having waited a couple of weeks or so for the paper, without receiving a copy, he wrote to the Postmastel here to know whether the letter had b en te celved at his office. It had not been received there, nor here; and the gontleman now sends us a certificate from the Postmaster at New Providence that the letter was mailed there We of course accept the proof and send the paper. But we want to know what became of that three dollars-at what post-office on the route the letter was switched off. We don't care anything about the money-w only want to know who got it, and will cheeriully pay the above reward, large as i , for the information.

HYMNS FOR THE SABBATH SCHOOL AND PRAYER MEETING .- This is the title of a little book of ninety-one pages, recently published by Mr J. LEBRUN, of this city, of whom copie may be had. The hymus seem to be well adapted to the use for which they are intended. Price \$1 per dozen, bound in mousling and 60 cents per dozen in paper.

BELL AND EVERETT ENVELOPES -We hav neglected to acknowledge our indebtednes to Mr. F. Hagan for a package of BELL and EVERETT envelopes. On the face of each, i. a cluster of stars, are the words "The Unio the Constitution and the Laws," and on th oack: "Hon. "It is the duty of every reflecting man to xamine into public expenditures, and discriminate in his judgment upon those who preside over them."—New York Board of Ed ucation. In doing this we should bear in mind that human actions are prompted by one of two motives, namely - the good of others, or the actor's own selfish purposes. It is often more necessary to look at the indirect than at the direct means of selfish gains. I once knew a government agent whose accounts were kept with system and regularity, vouchers. &c., were all apparently in due form, yet the laborer got but \$1,50 per day, while the risk of that home and the comforts in it, for government acqually paid \$3 per day, the the loss falls not only on you but wife and government being thus cheated one bundred | children will feel the deprivation most keenper cent., while everything to a book-keeper had the appearance of correctness. This was accomplished by an intervening party, who might be called a voucher maker This is one of the various ways deception may wear the face of honesty. In judging we must look bey and the actions, to the spirits themselves, the motives and the circum-tances. We must look to the dangers and los-es of the past to enable us to secure the future. This security for the future, then, is the object of tals investigation. If all present actors conn cted with the schools passes the purity of the angels, that is no reason for n t guarding the future against danger, and against temptations to di-hou-say and untaithfulness; and it would be folly to propose a change without showing that danger existed, or that losses bad been sustained; and it matters not whether the losses have been caused by dishonesty, by negligence or by incomp tency-whether the losses have been caused by one person or by several. Has unnecessary expense been made to the peopl ? Can it b avoid d? Is the organization such as would be dangerous if future incumo nis should

desire to be dishonest. These are the important questions. I have shown that it costs from \$ 0 000 to \$20.000 per year here for book-, &c., wante to Putladeiphia it cost but \$1,300 for a lik number of pupils, or 65 cours per pupil the people have a right to demand a reason for this vast disparity in exp use, and neither the Board nor the Supermendent can complain of being called to a rigid account for cauring such a state of things. A decent respect for themselves and the people d mands it of them. The only reason I have found was, they d d not wish the schools to come in contact with the back store. This means bat f ar business bouses are to be usk u under the special protection of the schools, These book stores are conducted by intelligent and worthy gentlemen, who are capable of taking care of the ms Iven. But this pr. unded protection by not coming in comp tition with the book-stores la contradict on a book store" as the committee say, but by purchasing within a year hundreds of Northern houses, and the committee contradict themselves and d sproved this non-competition, when they say, "The Sup rintendent as also attend d to the purchase of tooks. Instruments, ink, coals, &c., which the B and us- (have) ord red from the North " 1- pasing a resolution to introduc n w books and onying a supply of them to the pupils b. fire me book-sellers know of the resolution, the can make Northern purchases to an indefinite Board knowing to woat extend? But way do not the Board buy turniture from the dealers here, instead of sending

popular watering place, where he found a lit is a mockery of justice to compel people to pay heavy taxes under promise that they shall have free schools and then compel them there for several years. Indeed, he is not to nay more for books alone, than it costs in sure that there are not more visitors there has ever been. Under the the Nashville schools as chealy as for those in Philadelphia, and the only difference that need exist, is the trifling exp-use of freight.
This is more oppressive than the tea tax. &c.,
that caned the Am rican revolution. The remedy is simple and easy; follow the example of towns that have had 30 or 40 years experience, and buy the entire sumples for the schools. There are small rooms in the se'ool bui'dings that could be used as a depo itery or a second or third story room could be rented for \$150 a year. Osen it two ofternoons each week by a clirk who should be paid \$100 to 200 per year; a teacher could do it easily. Each teacher s'o 'd make out an ord r for the supplies needed for his room to be countersigned by the Superintendent, and the receipt of the t-ncher to be taken on the back of the order, and the order to be fi'ed by the Clerk to be ns d in connection with an ann al inventory fatock on hand, in his sannal set lement with the Board, and by the Board in their portlement with the Ward Truste s, who York Times says the existence of a second should codstitute a part of the school organigation. This arrangement would cost some pr vear, and would save pr bably \$10 000 Why a mething of t is kind has nor b en done b fore is a seri as qu stion between the pe ple and the Board, when reports of the other Boards the great advan- and E ba and other territorial grants. VALUE OF INSURANCE -We copy the followng sensible article from the Southern Homead of this city, L. P. WILLIAMS & Co., edit ors and proprieto s, which is adapted more particularly to farmers and mechanics, but will apply with equal force to merchants and other persons, who have stocks of goods and other property either entirely unprotected or only partly insured.

"Mon toll, work, slave, nay almost sin for their fam They do everything but insure.—Francis's Annals. INSURE T UR HOMESTEAD -Farmers and mechanics are you insured? If not, refl ct upon the ri k you run; unless you are fully sole to sustain the loss of your dwelling and furniture, you have no right to run the ly. Then reflect how much bet er it is for you to put aside a small sum mouthly to se cure yourselt from calamity; and then if you should be burned out and lose valuable pro perty, a few days and you are prepared to rebuild and replace that which you could not do without mortgaging the farm or per haps you could not replace your loss, and would be left houseless, and in want. The rates of insurance are now very low and there is no excuse for running a risk that one is not able to bear. Farmers should in-ure their bouses and furniture, their barn

stock and tool. No better investment can be made then by getting insured against as evil to which all are subject, and often sud-denly. Messrs. Nash & Marr, of this city are the agents of several of the oldest and best Insurance Compandies in the Union.

The IEON being absorbed by the blood, and thus circulating through the whole system, no part of the body can escape their truly wenderful influence.

The experience of thousands daily proves that no preparation of Iron can for a moment be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. In all cases of female debility (fluor albus, chlorosis, etc.), its effects are delightfully renovating. We remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use. As a grand stomachic and general restorativit has no superior and no substitute.
